HOME HEATING

Majestic

The Majestic is the latest in a series of superbly designed innovational wood heaters produced by the Australian Design Award winning team at Mr Stoves.

The multi faceted double-sided wood heater can be used as a truly unique freestanding feature in the middle of a room, forming the perfect focus for intimate dinner parties, sitting with friends or just a cosy night at home.

Its inspired double sided design allows for through wall installation. The simple benefit, two attractive, highly functional wood heaters for the price of one.

The unique twin fan system allows for separate fan forced heated air in each room.

* Central heating unit output over 25 KW
