Navara

COME ALIVE THIS WINTER...

Australian Made

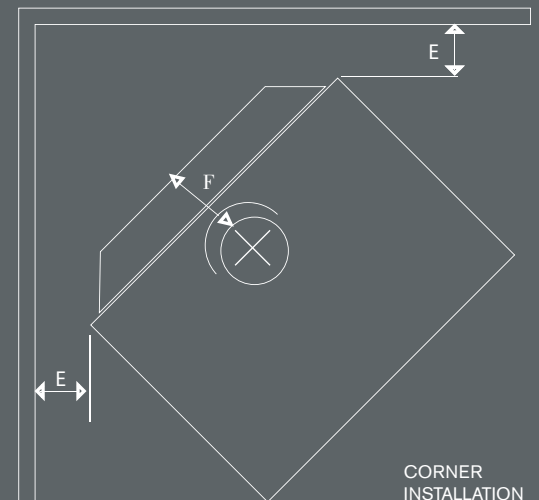

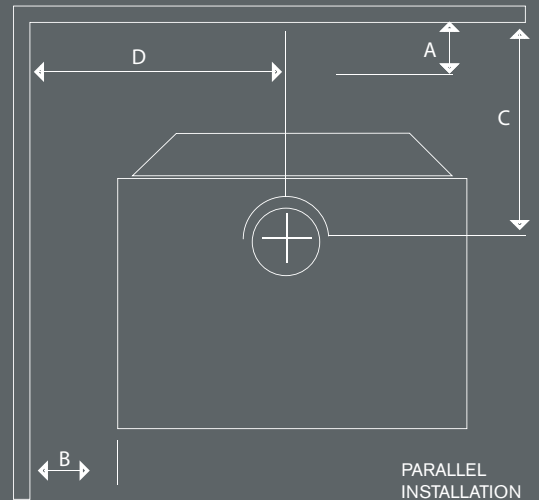

Vogue Navara

10 Year Guarantee*
*Conditions Apply

Specifications

Heat Rating	25-35 (fan) sqs.
Width	650mm
Depth	610mm
Height	720mm
Weight	120kg

The Navara's fan forced (bellows) combustion is unique to the Australian Heating Industry. Unlike all other fan-assisted wood-heaters, the Navara utilises the pressurised (fan-forced) air in two ways:

1. The pressurised air circulating around the heated firebox transmits this radiant warm air throughout the home.
2. The pressurised air (fan-forced) is injected directly into the combustion chamber generating an immediate high yield thermal response; (mass converted to heat via combustion).

***Environmentally Friendly**

Measurements

A	100 mm
B	300 mm
C	330 mm
D	625 mm
E	100 mm
F	230 mm

Benefits:

- Easy to light and rekindle
- Faster response (High yield heat output)
- High efficiency- low emissions, with reduced ash residue.

Manufactured in Brisbane by Wainwright Trading Co.
